

030: Choosing appropriate clothing

Establishing relations between people's lives and atmospheric phenomena

Starting Session

Talk about how we dress in accordance with the time of the day and the weather. Show the cards printed out beforehand and ask what clothes we wear in different situations: when going for a shower, when going to bed, when it's sunny and when it's cold. Work on the subject of diversity.

Miniland Product Game

Use the cards to associate the most appropriate clothing with the different situations: night time, shower time, a sunny day, a cold day. Play with and dress the Miniland dolls in accordance with the situation displayed on the cards.

Digital Game

When finished, play the digital game to reinforce content. The game consists of choosing the doll by moving the side arrows, opening the wardrobe and selecting the appropriate clothing in accordance with the 4 situations featured in the game (shower time, bed time, sunny day, cold day). Move the arrows to view more clothing in the wardrobe.
